

VACANCY

Mobile Mapping Senior Data Processor

Title: Mobile Mapping Senior Data Processor

Reporting to: Getmapping Operations Manager

Getmapping is a leading provider of aerial and ground based survey services in North-West Europe and Southern Africa. As part of our continued growth, an opportunity has arisen, to assist with our data management programs.

Main Duties:

The Mobile Mapping Senior Data Processor mission includes the managing of all aspects of Mobile Mapping Capture, Processing, Quality Control and Extraction under the support of the Operations Manager. This includes but not limited to: project planning, survey teams, survey equipment and the operational interface with key clients and subcontractors.

Person Requirements:

The ideal applicant will be a strong team player with the ability to make astute decisions when working autonomously away from base on occasions. A willingness to learn and an ability to support and mentor other members of the Mobile mapping team. A motivated individual embracing a high challenge, high support environment is key to the success of this role. This all needs to be aligned with the company core values: Integrity, Humility, Collective Responsibility, Win/Win Outcome, Fun & Humour

Trainings will be provided for the specific software used in data collection and processing, but previous experience on similar systems or software would be advantageous.

Essential:

- Experience organising and controlling all the aspects of a Mobile Mapping project (planning, capture, processing, QA and delivery)
- Comfortable with operating PCs and survey equipment and problem solving when hardware and software issues occur.
- A commitment to delivering beyond the expectations of internal and external clients.
- Full clean UK/EU Driving Licence.

Preferred:

- Geospatial/Geomatics graduation level.
- Land surveying experience.
- Static scanner collection and processing experience.
- Knowledge in Leica Geosystems Cyclone software.

- Microstation Bentley and Terrasolid package software experience.
- Knowledge of GIS software – MapInfo, QGIS, ESRI, FME.

Advantageous:

- Leica Geosystems Pegasus:Two Mobile Mapping system experience.
- Leica Pegasus Manager software experience.
- RICS / ICES qualification.
- Knowledge of imagery processing software – UltraMap, HexMap, GlobalMapper, Erdas, ERMapper.
- Knowledge of photogrammetry.

Working Locations:

The normal place of work will be at the Hartley Wintney, Hampshire main office.

Due to the nature of our business there will be an expectation to work throughout both the UK and Europe from time to time; with the potential to also assist our operations in Southern Africa with our sister company Geosense. In these cases, you will be expected to stay away from home and accommodation and subsistence will be provided.

Working Hours:

The normal hours of work are 37 hours per week, Monday to Friday, with starting and finishing times generally as follows:

Monday – Thursday	9:00AM to 5:00 PM
Friday	9:00AM to 4:30 PM

Remuneration:

A competitive salary is offered. The position has the benefit of 25 days paid holiday plus bank & public holidays & travel expenses, a company bonus scheme and a company pension scheme.

Applications:

For more information or to apply for this exciting opportunity please send a covering letter and a copy of your CV to careers@getmapping.com

This is a UK based role and as of which we are currently not able to provide sponsorship for citizenship.
