**Getmapping PLC (“Getmapping” or “Company”)
Strategic Review Concluded
End of Formal Sale Process pursuant to the Takeover Code**

Introduction

Getmapping and its subsidiaries (together the “Group”) is a long-established leading provider of geospatial survey services, including aerial photography, mobile mapping, LiDAR, digital mapping and web-based services. The Group currently operates from three locations across the UK and South Africa, serving customers based predominantly in Europe and sub-Saharan Africa.

On 14th October 2019, Getmapping announced it was undertaking a strategic review and was open to offers of minority investment, an offer for the entire issued share capital of the Company from a third party, or the sale of one or more of the Company's operating divisions.

After completing the strategic review, and considering a number of potential options, the Company has concluded that now is not the optimal time to consider offers for the Group. The Company will continue to focus on growing the existing core business while developing new geospatial services and solutions in line with the Company's strategy. The Board believes that continuing to grow the regular business while developing new revenue streams from services and solutions will enhance shareholder value during 2020. The Board will also be examining ways to simplify the Company's share structure.

The Board will continue to keep funding opportunities under review, but does not anticipate these resulting in a transaction pursuant to the City Code on Takeovers and Mergers (the “Code”). Further announcements will be made as and when appropriate.

End of Formal Sales Process

The Board of Getmapping therefore announces that the Company is no longer in a formal sales process pursuant to the Code. As the Company has ceased to be in an Offer Period, the disclosure requirements pursuant to Rule 8 of the Code are no longer applicable.
